

ARMAAN

I am excited to express my genuine interest in the Computer Vision Engineer position at **I2v Systems Private Limited**, as advertised. I am eager to bring my strong foundation in computer vision, hands-on project experience, and dedication to innovation to contribute to your team's vision of advancing video surveillance technology.

Throughout my academic journey at The Technological Institute of Textile & Sciences, I have not only developed a proficient skill set in Python, and C++ but have also cultivated a deep understanding of computer vision principles. I am particularly proud of my project, "Skill Scout," a Python-based Applicant Tracking System. This initiative showcased my ability to leverage my programming skills to create practical solutions. My role in leading a dynamic team for organizing engaging workshops further attests to my leadership and teamwork abilities.

My passion for innovation is also evident in my Face Attendance System project. Through the use of OpenCV and face_recognition libraries, I successfully developed a real-time face recognition application that captures and matches faces against a known database. This experience underscores my ability to design and implement complex algorithms in practical scenarios.

What sets **I2v Systems Private Limited** apart for me is its commitment to pushing the boundaries of technology. I am confident that my hands-on experience with Python, image processing, and machine learning libraries such as OpenCV, Keras, TensorFlow, and Pytorch aligns seamlessly with your needs.

Furthermore, my proactive pursuit of additional coursework, including certificates in Supervised Machine Learning and Advanced Learning Algorithms, demonstrates my dedication to continuous learning. These accomplishments reflect my drive to stay current with the latest developments in the field.

Enclosed is my resume, which highlights my education, projects, and skills. I am enthusiastic about the opportunity to discuss how my background makes me a strong fit for the Computer Vision Engineer role at I2v Systems Private Limited. Please feel free to contact me at armaanjan1689@gmail.com to schedule an interview.

Thank you for considering my application. I am excited about the possibility of contributing to your team and advancing I2v Systems Private Limited's mission.

SINCERELY,

ARMAAN
